Join us for this year’s Maple T.A. and Möbius User Summit in Copenhagen, Denmark on 13-14 June. We’re bringing together STEM educators from the Nordic region and beyond to discuss best practices, technology developments, achieving student engagement, and how to stay relevant in the constantly changing educational landscape.

AGENDA HIGHLIGHTS

THEMES:
- Delivering effective and engaging online STEM learning experiences
- Staying up to date with trends in e-learning
- Discover new technologies impacting the educational landscape
- Overcoming the challenges of online learning

KEYNOTE SPEAKERS:
- Steen Markvorsen, DTU
- Steve Furino, University of Waterloo
- Mark Schneider, Northern Alberta Institute of Technology

WHY ATTEND?

Expert Opinions – hear how long term users have used Maplesoft technology to transform their teaching experiences

Technology Developments – learn about Maplesoft development plans for 2018 and beyond

Networking with Colleagues – spend time with fellow educators and the Maplesoft Team

Enjoy Copenhagen – join us for an evening reception in the heart of this beautiful city!

INSTITUTIONS SCHEDULED TO PRESENT:
- EUC Nord
- Chalmers University of Technology
- University of Gothenburg
- NHL University of Applied Sciences

MAPLESOFT SESSIONS:
- Jim Cooper, President & CEO
- Product demonstrations: What’s New in 2018
- The Maplesoft Roadmap

June 14th is POWER USER DAY

Experienced Maple T.A. and Möbius users – get detailed answers to your technical questions and participate in a collaborative discussion on education, pedagogy and outreach. All attendees are welcome to attend day two of the Summit, however some of the presentations will be more technical in nature. Register at www.maplesoft.com/summit
